PROFESSIONAL SUMMARY

Full-stack MERN developer with 1+ year of professional experience delivering production-grade web applications using **React.js**, **Next.js**, **Node.js/Express**, and **MongoDB**. Proven track record building enterprise CRM systems, RESTful APIs, and responsive UI/UX for real clients in agile teams. Strong command of component-based architecture, state management, JWT authentication, and third-party API integrations. Passionate about building fast, accessible, and scalable frontend experiences with clean, maintainable code.

TECHNOLOGIES

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5
State & Data: React Hooks, Context API, React Query, Axios, REST APIs, JWT Auth
Backend: Node.js, Express.js, Spring Boot, FastAPI
Databases: PostgreSQL, MongoDB, MySQL
DevOps & Tools: Git, GitHub, Docker, Postman, VS Code, Agile
Integrations: Stripe, Zoom API, Google Drive API, Nodemailer
Other Languages: Java, Python, SQL
Soft Skills: Teamwork, Time management, Attention to detail, Critical thinking, Quick learning, Leadership

EXPERIENCE

Associate Software Engineer

Aug 2025 – Dec 2025

Vinasai Inc, Toronto, Canada (Remote)

- Built dynamic React dashboards with real-time statistics on attendance, services, and client interactions for an Accounting CRM, reducing manual reporting time by ~40%.
- Developed reusable React component library for leave management, QR-based attendance, and client portal modules across 2 enterprise products.
- Implemented role-based UI rendering in Next.js for Admin, Employee, and Client users with JWT-secured API routes and permission-based access across 3 user tiers.
- Built responsive Garage CRM frontend with work order management, multimedia upload, and automated email notifications, cutting manual follow-ups by ~50%.
- Engineered Node.js/Express REST APIs with PostgreSQL and MongoDB consumed by React frontend, with auth middleware across 5+ modules.

Software Engineer Intern

Feb 2025 – Jul 2025

Vinasai Inc, Toronto, Canada (Remote)

- Developed a Static Airline CMS admin dashboard in React with dynamic banner, deal, and destination management, replacing manual content updates entirely.
- Built LMS frontend integrated with Zoom API (class scheduling), Stripe (checkout flow), and Nodemailer notifications, reducing scheduling effort by ~60%.
- Owned 5+ frontend modules from wireframe through component development, API integration, and production deployment in an agile team.

Freelance Full-Stack Developer

Jan 2026 – Apr 2026

Self-Employed, Remote

- Developed 4 web applications, including e-commerce, management systems, and informational sites using Node.js, React, MongoDB.
- Enhanced SEO, image performance, query efficiency, and leveraged secure payment gateways to boost site load times and user experience.
- Deployed applications with CI/CD pipelines, ensuring efficient updates and stable production environments.

PROJECTS

VisionAssist– Resource-Type Aware Document Intelligence for Visually Impaired Learners (FastAPI, React.js, MobileNetV2, FLAN-T5, LoRA (PEFT))

- Built the accessible React web frontend for a 4-module AI pipeline (document classification, adaptive extraction, abstractive summarization, extractive QA) served via FastAPI backend.
- MobileNetV2 classifier on 4,000 document images achieved 96.57% validation accuracy vs. ~81% baseline 15%+ improvement; structural accuracy improved from 76% to 95% with adaptive extraction.
- FLAN-T5 + LoRA (rank=16) summarization fine-tuned on 2,120 pairs with only 2.67% of parameters, achieving ROUGE-1: 49.38, ROUGE-2: 20.85, ROUGE-L: 30.80.

Backend Microservices Platform (React.js, Node.js, Docker, Kubernetes, JWT)

- Built React frontend consuming 6 independent microservices (auth, order, payment, delivery, restaurant, notification) with JWT auth and RBAC.
- Containerized all services with Docker and configured Kubernetes for scalable production orchestration.

Bridal Vision Studio (React.js, Node.js, MongoDB, Mongoose, Tailwind CSS)

- Developed responsive React frontend with full product management for admin and customer portals, complete CRUD operations, and MongoDB schema management.

Online Stock Management System (Java, MySQL, Servlets, HTML/CSS)

- Built full-stack inventory and cart system with Java backend, HTML/CSS frontend, and MySQL, implementing full CRUD operations.

EDUCATION

BSc (Hons) Degree in Information Technology Specialized in Software Engineering 2022 - 2026

- SLIIT – Sri Lankan Institute of Information Technology

G.C.E Advanced Level Physical Science Stream B, 2C's 2021

G.C.E Ordinary Level 8A's & B 2017

EXTRA-CURRICULAR

- | | |
|--|-----------|
| • St John Ambulance Cadet Leader of Hindu College | 2019/2020 |
| Achievement – Best Cadet in 2019 | |
| • Secretary of Hindu College Students' Welfare Society | 2019 |
| • Editor of Hindu College Tamil Union | 2019 |
| • Assistant Secretary of Hindu College Mathematics Union | 2019 |
